EXAMINER'S COMMENT

Election/Restrictions

1. Applicant's election without traverse of Group I, claims 1-13 in the reply filed on July 15, 2005 is acknowledged. It is noted that claims 14-18 have been canceled by applicant.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

With respect to claim 1 in particular, the prior art of record fails to teach or fairly suggest an offset printing press including all of the structure as recited, in combination with and particularly including, plate and blanket cylinder retention mechanisms each comprising first and second trunnions rotatable within the frame structure, at least one of the first and second trunnions being *axially displaceable* by an actuating member between an operative and disengaged position as recited, and at least one of the plate and blanket cylinder retention mechanisms also being *selectively displaceable relative to the frame structure such that a distance between the axes of rotation of the cylinders of the press is variable*.

In particular, it is noted that various pieces of the prior art teach portions of the claimed combination, though none of the prior art of record teaches or renders obvious the entire combination as recited. Furthermore,

there is no clear motivation to combine the teachings of such prior art as Stram et al. (US 5,787,808), Mowry (US 3,616,751), and Stoessel (US 1,934,776).

Additionally, such a combination still would not teach or render obvious the offset printing press of the present invention including all of the structure as specifically recited.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to **Leslie J. Evanisko** whose telephone number is **(571) 272-2161**. The examiner can normally be reached on M-Th 7:30 am-6:00 pm.
